This is an unvarnished look at the development of an internal script for 8/28 meeting. We are meeting as a team to refine it next Thursday, but wanted you to get a look at it in case you wanted to redirect our efforts. I am pushing on the need to share analyses where helpful. Also, I will give Kelly and Deane calls next week to prep them and get their input.

From my voice mail exchange with Goodin, it appears his plan is to have Keating participate in-person and not have Curtain participate at all. I will forward you Goodin's voicemail. I think that will be fine.

Some initial (rough) comments attached. Let's talk more.

Additional non-legal thoughts follow: Beyond the opening statements, I'm not sure we can script it too much. But maintaining control of the discussion (see "reset" comment after opening statements) and keeping the focus on alternatives and compromise would seem to be key. Let's talk more.
